WORK EXPERIENCE

Criar Ideias

Feb. 2023 – Present

Full-Stack Developer

Patrocínio, MG

- At Criar Ideias, a marketing agency specializing in technology and marketing for other companies (criarideias.com.br), I served as a Full-Stack Developer responsible for developing applications for our clients.
- As a Full-Stack Developer, my job is develop any application required by our clients
 - In my first two months, I developed three single applications, and I'm currently leading a team in developing a large project.
 - Working on these projects, I gained experience with a diverse range of technologies, including PHP and NodeJS Restful APIs.
- I had the opportunity to exercise my leadership skills by leading a small development team.
